

Small Actions, Big Impact

Everyday Green Practices

**Sustainability starts
with daily habits**

SUSTAINABILITY IN DAILY WORK

Sustainability is part of daily work
It's not only about strategy or investment.
It's about:

- how we use energy
- how we use materials
- how we work every day

A TYPICAL WORKDAY

What usually happens?

Equipment stays on

Unnecessary printing

Waste of materials

No awareness of impact

SMALL CHANGES

What can change?

Switch off equipment

Use digital documents

Reduce waste

Check before leaving

Small actions → Big cumulative impact

No cost – immediate impact

KEY AREAS

Where can we act?

Energy

- Turn off devices
- Use efficient settings

Materials

- Reduce paper
- Reuse resources

Water

- Avoid unnecessary use

Mobility

- Choose sustainable options

HABITS MATTER

- Most problems = habits
- Automatic printing
- Leaving devices on
- Not questioning routines

Change habits = big results

YOUR ROLE

Everyone contributes

You can:

- Identify problems
- Suggest improvements
- Apply better practices

Sustainability = shared responsibility

TAKE ACTION

Start small

- Choose 1–2 actions:
- What will you change?
- When will you start?
